Bar Guns:

1. Plug in all carbonators  and water boosters (if applicable)
 - The carbonator may need to be shaken to reset the probe inside
2. Turn on incoming water supply and CO2 supply (if applicable) to beverage equipment 
3. Check and replace all out dated BIB
4. Follow the daily, weekly and monthly cleaning recommendations for bar gun cleaning 
5. Fill the ice well with ice
 - Allow the ice to sit in the bar well 1 hour before completing step 7
6. Pour product on all buttons/brands for at least 2 minutes each
7. Taste all drinks. If there is an off taste from any brand, pour more product from that brand for another minute, then check again for satisfactory taste. If taste remains unsatisfactory, place a service call.
